

HEALTH CHARTER - COVID 19

Due to the exceptional context, the gite de la Gravée undertakes to comply with the prevention standards against Covid-19.

We want you to have a good time while ensuring optimal hygiene and safety for you, as for us.

Upon your arrival

In these particular times, we will welcome you **masked**. Thank you for being too.

On your arrival, as on your departure, we will give up shaking your hand but the intention will be there. During your stay, we will practice **physical distancing** during our discussions. We will practice with you the **barrier gestures** recommended by the authorities and we thank you for doing the same.

The entrance visit to the cottage will be with one person. We will have the key, after being disinfected, on the front door. The wifi code will be noted on a card, changed with each stay.

During your stay

We invite you to **use the hydro alcoholic gel** made available to you on each return from your visits or races, **before entering the cottage**.

Please only use **the dishwasher for your dishes**, use the products at your disposal, and **ventilate the rooms regularly**.

Free provision

To allow you to respect barrier gestures, we provide you with free : hydroalcoholic gel, liquid soap, paper towel roll, paper towels instead of napkins, 1 mask / person on arrival if you do not don't have any, disinfectant wipes.

On your departure

Please **unpack your bed - mattress protector and pillow protector included** - and put everything in a large garbage bag provided for this purpose. **The bedspread should be folded** and placed on the bedroom table. **Towels must be placed in the shower tray or in the bathtub**.

Thank you for washing your dishes in the dishwasher before. The bins must have been emptied.

Open wide all the doors and windows of the cottage to allow ventilation of the premises, 30 minutes before your departure.

New schedules are needed

With the constraint of a more meticulous preparation of your gite, we limit the reservations this year. If we can, we will set up a 24-hour fallow in two bookings.

If this is not possible the arrival and departure times will be modified to allow us to apply the sanitary protocol.

Departure: before 9 a.m. Arrival: from 6 p.m.

As the owner, before your stay: we will respect these commitments.

What does not change: the cleaning of the gite. **It is important to us to provide you with a clean gite.** Before your arrival, we will have disinfected and ventilated the cottage.

Please be aware that we do our best to protect your safety and ours by cleaning and disinfecting frequently touched surfaces (switches, door handles, furniture handles, remote controls, etc.) before your arrival. Sofas, armchairs, curtains... will be steam cleaned.

A little less decoration and objects

For your safety we remove all non-essential items from the gite such as decorative items, books, magazines, trinkets, grocery products usually available. We are obliged to reduce the dishes. The necessary quantity will be there but the choice will be less.

We will send you a digital welcome booklet before your arrival. You will be able to download it to your smartphone.

The linen provided, our protocol

As usual, the bed linen will be washed and disinfected at 90 ° as well as the household linen. The bathroom linen is washed and disinfected at 60 °.

As we always did, the mattress pads will be changed after each stay as well as the pillow and bolster covers. The bedspreads will also be changed at each stay. All linen is ironed with a steam generator.

Small change this year: if you want additional linen, please let us know during your stay, it will no longer be self-service as before.

Enjoy your holidays in Vendée

To visit the Vendée, discover the nearby nature.

Whether you are at the gite de la Gravée for nature holidays, sports holidays or even discovery holidays, fully experience your holidays with respect for barrier gestures.
